2. "Save" – will save changes.
3. "Add New" column button – will open window, what will let you to add/modify "Type" values
4. "Type" column combobox – will show you a list of available Types for grouping Warehouse Item
5. "Name" column textbox – will let you to store name of your item.
6. "Quantity" column textbox – will let you to manage amount of items in your stock.
7. "Price" column textbox – price for following warehouse item.

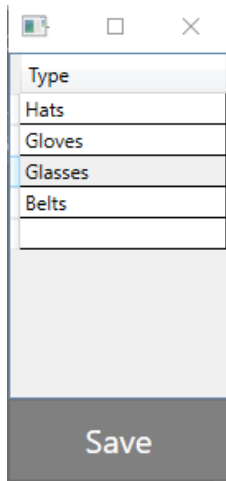

# Workflow

1. To start working with an application, first you need to insert your items on “Warehouse”

1.1. Go to Warehouse Tab [\(3\)](#)

1.2. Click “Add new” in “Type” column [\(3\)](#)

1.3. Insert your item Types (Groups of goods)

1.4. Click “Save” and close the window

1.5. Select “Type” from combobox [\(4\)](#)

(If newly created items are not appeared in combobox, try to switch selected row on another and back)

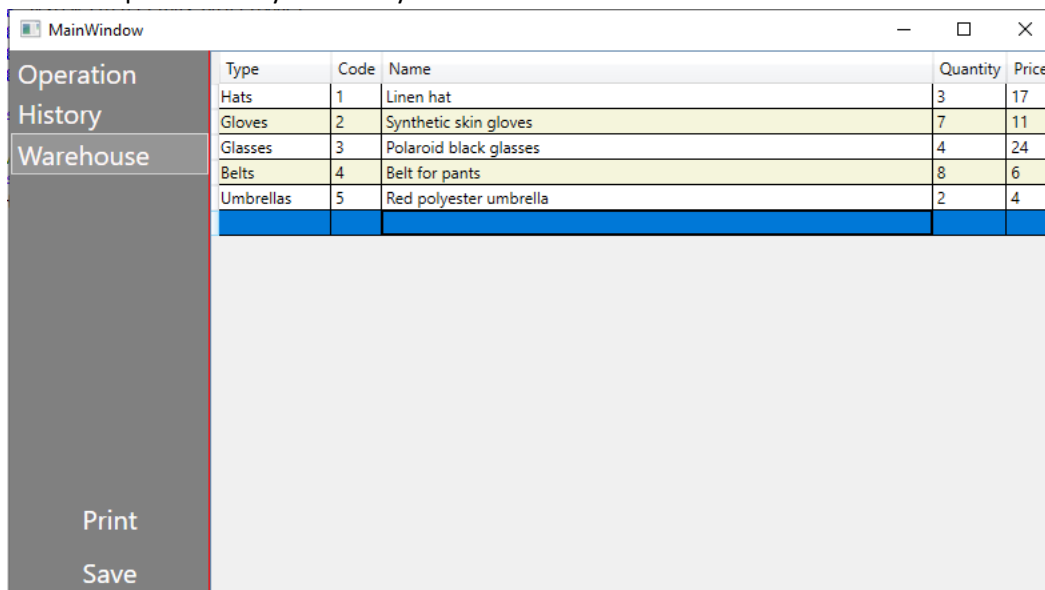

1.6. Insert Item Name into “Name” column [\(5\)](#)

1.7. Insert Quantity [\(6\)](#)

1.8. Insert Price for one Item [\(7\)](#)

1.9. Click “Save” button [\(2\)](#)

1.10. Repeat as many times as you need.

Type	Code	Name	Quantity	Price
Hats	1	Linen hat	3	17
Gloves	2	Synthetic skin gloves	7	11
Glasses	3	Polaroid black glasses	4	24
Belts	4	Belt for pants	8	6
Umbrellas	5	Red polyester umbrella	2	4

2. Now you're ready to work with application. Switch back to Operation tab. [\(1\)](#)
  - 2.1. Click on textbox window [\(3\)](#)
  - 2.2. Insert Item Code (From Warehouse Item) or scan a barcode label
  - 2.3. Click "Enter" (if you have scanned a barcode, then it's not needed)
  - 2.4. Total sum of invoice will be displayed here [\(1\)](#)

MainWindow

Code	Name	Quantity	Price (€)	Discount (%)	Total
3	Polaroid black glasses	1	24	0	24

24 €

Print Last

Clear

3

OK

- 2.5. Once all items are added to list, click "OK" button [\(4\)](#)

MainWindow

Code	Name	Quantity	Price (€)	Discount (%)	Total
3	Polaroid black glasses	1	24	3	23,28
4	Belt for pants	1	6	0	6

29,28 €

Print Last

Clear

4

OK

- 2.6. Receipt will be printed out.
